

## Safety Services

Delta-V Experts (DVE) is a specialist forensic engineering and safety solutions company. DVE conducts in-depth, scientific and reliable investigations into incidents to determine the true causes of failure and any contributing factors. The types of incidents we investigate include transport accidents, workplace injuries and equipment failures.

DVE has identified and investigated major maintenance and safety shortcomings which have led to fatalities and prosecutions of Directors. By combining its engineering, investigation and safety knowledge, DVE has created services designed to help prevent such occurrences.

DVE offers comprehensive Mobile Equipment and Safety Audits, which include checks of maintenance records to determine compliance with standards and procedures as well as fitness for purpose. A DVE Safety Audit can inspect and assess your workplace for potential hazards, and provide advice and effective ways to mitigate the risks.

DVE is offering this service because of its experience in seeing Company Directors being Criminally prosecuted for breaches of specific Occupational Health and Safety Legislation, when the Company Directors have been told and assured that X is happening but a serious injury and/or fatality demonstrates that Y has occurred. Company Directors need to be assured that their Mobile Equipment and Safety systems are what they believe they are.

## Safety Services

### Benefits

DVE's findings are provided to clients in clear, concise, substantiated reports. Full vehicle handling assessments provides peace of mind and certainty of compliance with OH&S requirements.

Mobile equipment audits ensure the safety of the workplace and compliance with OH&S requirements. Implementation of these processes can reduce legal exposure and help ensure that legal duty of care obligations are met.

### Applications

DVE's Safety Services apply to all sectors, including:

- » The transport industry
- » Any company with mobile equipment
- » Resource, mining and exploration companies
- » Government instrumentalities
- » Workplaces
- » Any organisation interested in improving safety

### Contact Us

Please contact us to arrange a more detailed presentation of these services and allow us to demonstrate the major benefits to be gained by using DVE's safety services.
